

# Ascot Design are an award winning architectural practice with an unrivalled reputation for the design of bespoke residential properties

We are totally committed to our clients, offering a high degree of personal service and respect for the valuable resources of budget and time. Through excellence of design and professional execution, our aim is to create high quality, effective and inspiring places to live. All our projects are bespoke and individually designed to suit the client's needs and take advantage of a site's characteristics.

For further information, please contact us on 01344 299330 or [info@ascotdesign.com](mailto:info@ascotdesign.com)

1

## Concept and Planning

Let us create a concept by evaluating your site, using our knowledge of the planning process and creative skills to transform your brief into a working design.

2

## Technical Design

We can produce images allowing you to visualise the finished design, whilst we develop the project into a complete package of drawings, ready for construction.

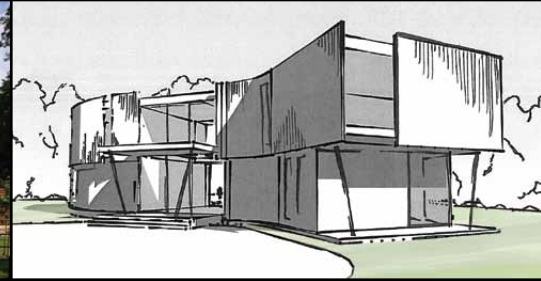

3

## Delivery

Finally, we can guide you through the construction stage by providing a full project management service, or simply monitoring progress with technical assistance.
